

Endress+Hauser shows its colors in Spain

Sales center inaugurates a modern new building in the Barcelona region

Endress+Hauser Spain celebrated its 25th anniversary in a special way: the company moved into its own premises in Sant Cugat in the west of the Barcelona metropolitan region. Endress+Hauser invested eight million euros in the new building.

In the presence of representatives from politics and business and guests from the whole Endress+Hauser Group, the sales center inaugurated its new building on Saturday, 3 October 2015. Over 4,000 square meters of floor space accommodate modern offices and a canteen for employees and guests, as well as a well-equipped solutions laboratory and spacious premises for customer seminars.

“The new building allows us to improve our offering of hands-on training courses and seminars and to further strengthen our customer relations,” says Antonio Carulla, Managing Director of Endress+Hauser Spain, adding that he sees his company to be absolutely fit for the future. By the end of the year, Antonio Carulla, who has led the company since its establishment in 1990, will retire and hand over the management to his successor José Manuel Lado.

Market success in Spain through customer focus

Parallel to the inauguration of the building, the sales center also celebrated its 25th year in business. In Spain, Endress+Hauser employs more than 70 people, with 50 associates working in the new premises in the west of Barcelona. In addition to the headquarters in Sant Cugat del Vallès, regional sales offices in Madrid, Valencia, Seville, Bilbao and Zaragoza ensure proximity to customers and markets. Most of the sales center’s customers come from the water & wastewater, food & beverage and chemical industries.

Endress+Hauser Spain inaugurated its new building in Sant Cugat del Vallès close to Barcelona. Damià Calvet, Sant Cugat's Deputy Mayor for Urban Planning, Transport and Housing, Matthias Altendorf, CEO of the Endress+Hauser Group, Antonio Carulla, Managing Director of Endress+Hauser Spain, Bruno Ruyff, Consul General of Switzerland in Barcelona, and Pere Torres, Secretary of Business and Competitiveness of Catalonia (from left), cut the ribbon in the presence of officials and company representatives.

The Endress+Hauser Group

Endress+Hauser is a global leader in measurement instrumentation, services and solutions for industrial process engineering. The Group employs more than 12,000 personnel across the globe, generating net sales of 2.0 billion euros in 2014.

Structure

With dedicated sales centers and a strong network of partners, Endress+Hauser guarantees competent worldwide support. Our production centers in 11 countries meet customers' needs and requirements quickly and effectively. The Group is managed and coordinated by a holding company in Reinach, Switzerland. As a successful family-owned business, Endress+Hauser is set for continued independence and self-reliance.

Products

Endress+Hauser provides sensors, instruments, systems and services for level, flow, pressure and temperature measurement as well as analytics and data acquisition. The company supports customers with automation engineering, logistics and IT services and solutions. Our products set standards in quality and technology.

Industries

We work closely with the chemical, petrochemical, food & beverage, oil & gas, water & wastewater, power & energy, life science, primaries & metal, renewable energies, pulp & paper and shipbuilding industries. Endress+Hauser supports its customers in optimizing their processes in terms of reliability, safety, economic efficiency and environmental impact.

History

Founded in 1953 by Georg H Endress and Ludwig Hauser, Endress+Hauser has been solely owned by the Endress family since 1975. The Group has developed from a specialist in level measurement to a provider of complete solutions for industrial measuring technology and automation, with constant expansion into new territories and markets.
